- Simulation
How do we interact with the virtual environment? (HVRI)
What is Immersive?
Immersive Architecture (collaboration)
Human-VR Interaction in Architecture
Not every project presentation has to feature VR content. High-quality architectural renderings are often more than enough. Creating the interactive contents take time and effort. Accuracy Problem.

The Vision

- Portability
- Flexible space needed
- Designable interaction
- 360 degree, Multi-user
- NO heavy headsets
Thank you!!!
